RE: CG Docket No. 03-123
Federal Communications Commission (FCC)
445 Twelfth Street SW
Washington, DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

A handwritten signature in cursive script that reads "Jeffrey Stewart".

RE: CG Docket No. 03-123

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

My name is Bob Walker. I am deaf person and I use Video Relay Service (VRS) to communicate.

You are right. 90% of deaf Americans use TTY/TDD (Teletypewriter or Telephone Deaf Devices). Only 10% of deaf Americans have Videophone equipments. WHY bother spend thousands or millions of dollars to VRS providers.

Please LISTEN MY MESSAGE CAREFULLY. I AM TELLING YOU THE TRUTH.

Please do not be a hypocrite. You warn Americans to avoid the scam or scammers for many years. Yes you do not know about VRS providers' background. You spend thousands or millions of dollars to scammers. YES YOU DID. SOME OF VRS PROVIDERS ARE SCAMMERS. Some of the Video Relay Service providers are scammers received money from the government or FCC. The scammers take the advantage of ADA laws. So they can make money and get rich. YES IT IS TRUE. Many Video Relay Service providers hire unprofessional interpreters for the deaf. Many deaf VRS users are complained about the deaf interpreters. THAT IS FACTS. THAT IS TRUTH. There are 14 or more Video Relay Service providers in America. THAT IS RIDDANCE! I know you are complained that you or FCC spend too much money on VRS providers. I want you to investigate all VRS providers to see if they are scammers. You should cut from 14 VRS providers to 4 to 5 VRS providers.

MANY VRS PROVIDERS WANT MORE MONEY FROM THE GOVERNMENT. THEY ARE GREEDY. THEY WANT MONEY. THEY WANT RICH.

PLEASE SAY NO TO VRS PROVIDERS, PLEASE! NOT PENNY MORE TO VRS.

Another problems: Many deaf receive more than 2 to 4 videophone equipments. WHY? Because you wasted our tax dollars. THAT IS riddance! You should make a new rule or policy. New policy: Deaf Americans do not receive more than one videophone equipment per family.

Save our tax dollars.

SAY YES CUT VRS PROVIDERS OR FUNDS. I SUPPORT YOU 100 %.

PLEASE SAY YES CUT VRS PROVIDERS OR FUNDS!

THANKS YOU FOR READING MY MESSAGE.

SINCERELY,

BOB WALKER

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

A handwritten signature in cursive script that reads "Purdy Killam".
